

Liceo

by Piergiorgio Cazzaniga

The Liceo collection is all about craftsmanship and formal beauty. Made of solid ash wood, it is composed of armchairs and lounge chairs created with the mastery of the cabinetmaker, combining the warmth and texture of wood with fine stringing work. The wooden structure is also available in different shades, in combination with either a fully upholstered seat (leather or textile) or strung in one of two tones (sand or black).

It is a design in keeping with the purest tradition of Andreu World wooden chairs, where upholstery know-how and woodworking experience come together in a natural and fluid way, to achieve a memorable design that has become a contemporary classic since its inception.

SO1545

Armchair with upholstered seat and back with structure in solid ash wood.

SO1546

Armchair with seat hand-woven with high quality cord in the same tone as the solid ash wood frame and backrest.

ANDREU WORLD

BU1547

Lounge chair with upholstered seat with backrest and frame in solid ash wood.

BU1548

Lounge chair with seat hand-woven with high quality cord in the same tone as the solid ash wood frame and backrest.

LICEO

Liceo comes in two models: armchair and lounge chair. Both are built to guarantee maximum resistance for even the most demanding uses, both in public and residential spaces.

SO1545
Armchair with upholstered seat and backrest and frame in solid ash wood.

BU1548

Lounge chair with hand-woven seat in high quality cord in a wood tone with solid ash wood frame and backrest.

ANDREU WORLD

BU1547

Lounge chair with upholstered seat and solid ash wood backrest and frame.

For its construction, 100% certified FSC® wood has been used, from reforested forests and complying with the chain of custody, from the tree to the final product. All its elements are easily separable for a second life, designed for the circular economy.
