

THE ART OF PRESENTATION

Healthcare

Steelite is a world-leading manufacturer and global supplier of award-winning tabletop solutions. We provide contemporary and cost-effective ranges for the healthcare sector's challenging and ever-changing landscape. We are the trusted source of durable and serviceable tableware for hospitals, nursing homes and assisted living facilities around the world. We have made it our mission to be at the forefront of innovative manufacturing and dynamic design within the healthcare field.

The following collections contain meticulously selected ranges of ceramics, cutlery, drinkware and buffet, chosen for their functionality and versatility. These ranges showcase Steelite's passion for excellence and commitment to customer care. They encompass the very best of cutting-edge solutions for our healthcare facilities, their workers, their patients and their clientele.

Our Made for Life campaign

Promotes the benefits of British manufactured tableware, and underpins the four elements of our mission statement. This is our commitment to you. We make our products and serve our customers with this in mind - everything we deliver is for life.

INSPIRATIONAL DESIGN

We design our products for life.

EXCELLENT QUALITY

We make our products for life.

OUTSTANDING SERVICE

Our customers are partners for life.

MINIMISING ENVIRONMENTAL IMPACT

We are helping secure an environment that is fit for life.

The Steelite International Lifetime Edge-Chip Warranty

Is your assurance that all Distinction and Performance products manufactured in the UK factory will withstand the rigours of the modern commercial kitchen and remain chip free (10 years in Germany).

What Sets Us Apart

The Steelite International Lifetime Edge-Chip Warranty is your assurance that all Distinction and Performance products manufactured in our UK factory are fit for purpose. This commitment to quality excellence ultimately results in product that you will replace less often - great for your kitchen, great for your long-term costs and great for the environment.

Our Alumina Vitrified clay body offer our customers the opportunity to purchase sleek and elegant pieces with the security of durability and lasting product excellence. All Performance and Distinction products are made with high alumina content to ensure ultimate strength. 100% Vitrified Ceramics prevent crazing and cracking that lead to bacterial growth over time, thus enhancing sanitation and food safety efforts.

Each piece is inspected, examined and tested so you can be confident it will withstand the rigours of the modern commercial kitchen and remain chip free.

Secure Handle Adhesion

Every time you serve a customer with a Performance or Distinction cup or mug, relax in the confidence that the handle has gone through 7 different quality checks to ensure it stays where it belongs - on the cup!

Heat & Chill Retention

Piping hot main course or ice-chilled desserts, serve your food as it is meant to be served.

Stain Resistance

All products have great stain resistance, which means you can work comfortably with any food time and time again... without leaving a trace.

Stackability

Stackable shapes result in space-saving solutions! A fully glazed base minimizes contact, preventing damage and wear.

Glaze Damage Resistance

Exclusive low-temperature glaze is great for your presentation and great for the environment.

Microwave & Freezer Safe

Our products offer complete versatility. However you work, be confident our products work with you.

Dishwasher Safe

Our products withstand the dishwasher better than most by enduring the rigours of the food service industry wash after wash.

Thermal Shock Resistance

Performance and Distinction products withstand temperature fluctuations of up to 350°F. Work with our products and work with confidence.

Zero Waste Manufacturing

Steelite International work closely with a number of suppliers and organisations, and are continually monitoring, developing and improving procedures to create minimum impact on the community and environment, while ensuring maximum efficiency and cost savings for the future sustainability of the business.

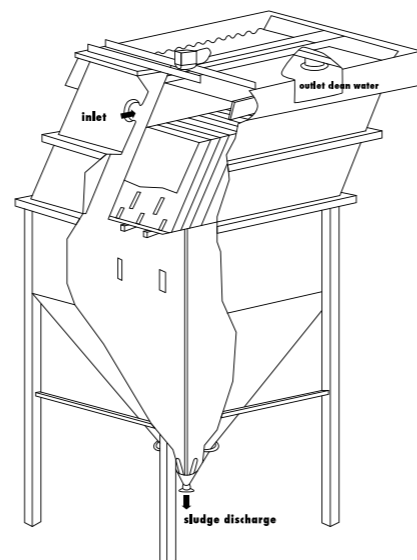

Steelite International is a member of The Green Organisation that rewards and promotes environmental best practice around the world, and the Staffordshire Business & Environmental Network, which aims to help local businesses reduce environmental impacts while also generating profits.

We have a dedicated and innovative approach to caring for the environment. In 2019 Steelite were awarded an engineering gold Green Apple Award for the implementation of a waste water centrifuge system.

Our new centrifuge system works by spinning waste material out of waste water at very high speed, the water is separated from waste glaze and then reclaimed saving around 20 cubic metres of water per day. This has dramatically improved the quality of waste water that does leave site. A part from significantly reducing water, it saves glaze and lowers energy usage on site too.

In 2007, the business became one of only five companies in the UK to install a Lamella system. Steelite is the only tableware manufacturer to use a Lamella system for recycling clay waste.

In addition to clay recycling, fewer chemicals are now required to separate waste. This has a positive effect on the environment and water discharged from the site is also purer.

The Lamella has significantly reduced Steelite International's impact on the environment. The company now recycles in excess of 99% of manufacturing waste. In 2010 we received a Green Apple Award for the Lamella project.

plaster

Waste plaster moulds are recycled into plaster board material for the building industry.
822 TONNES RECYCLED IN 2019

water

Capturing process waste and re-introducing it back into our products saves on waste leaving site, reducing our impact on the environment

wood

Scrap wood from the site goes to a wood chip plant which turns the waste into chipboard for the building industry
54 TONNES RECYCLED IN 2019

refractory waste

Refractory waste (broken kiln furniture) is introduced as an aggregate used by several industries

paper

By using Woodland Trust printer paper, **we have helped to fund 1.86 hectares of new native UK woodland during 2019, to capture 743 tonnes of CO₂**

clay

The introduction of our Lamella machine in 2007 now allows us to recycle clay waste in water. This **allows us to produce 15,000 cups and saucers every year with the clay waste extracted**

energy

We monitor energy usage and monitor yield, paying particular attention to the amount of product we put into our kilns as poor kiln fill would lead to waste energy

less than 1% can't be recycled

The only waste that leaves our site destined for landfill is waste ceramic fibres as it is hazardous and has no other use. Less than 1% of our total waste by weight or volume goes down this route

independence

This range is designed to help individuals maintain their independence by providing an innovative solution to eating and drinking.

Food and being able to feed oneself is one of the few independent pleasures left to those with age restricted mobility.

innovation

A perfect example of an innovative range designed for a market with specific and sensitive needs. All of the product design features address problems that individuals may face with restricted mobility.

A complete range of standard items are available to co-ordinate with the offer, enabling people with restricted mobility to enjoy meals alongside their friends and family.

design

- Plates 0122/3 feature a cleverly designed undercut shoulder which is helpful in getting the food onto a spoon or fork. This greatly enhances the ease of eating without assistance.
- A wide food area adds stability and helps to hold the plate in place during a meal. The curved rim profile catches any tricky overspill and prevents foods from slipping onto the tabletop.
- The mug features two sturdy handles large enough to accommodate unsteady fingers and enabling a steady satisfying drink.
- A wide base on the mug means easy placement after drinking and the avoidance of spillage.
- All ceramic items are available in pure white and a range of cheerful colours which aid recognition of the food surface.

trust

All ceramic products within this collection come with Steelite International's lifetime edge-chip warranty (10 years in Germany) so you can rest assured knowing that you are in safe hands.

*Special order MOQ applies to this item in Rio colours

elegantly embossed edge

Bead styling is crisp, timeless, and elegant. As such, it defines a classic approach to dining, one which embodies best practice for the back of house ease-of-use while delivering beautifully presented dishes to delighted diners. Bead celebrates the aesthetics, beautiful proportions, finesse, and gracefulness of 18th Century detailing inherent in designs crafted initially in fine silver. This provides an excellent frame to the food and elevates Chef's best efforts.

Bead consists of two elements: Bead and Bead Accents. The Bead range features the classic linear design, and is carried across the main range of items. The Bead Accents component offers an alternative decorative style to key presentation items alongside the classic iteration. The Bead Accents decoration provides a contemporary element that adds texture and visual excitement. Both can be mixed freely for a personalised collection.

warm retro appeal

This enamel look tableware is perfectly positioned to work with all other decorated and white tableware ranges which provides flexibility to bring through seasonal and menu changes. Whilst appearances may remind us of a bygone time the items and function of the pieces are extremely practical for today's busy kitchens. The Dapple collection allows the caregiver to de-institutionalise the dining process, providing a more "at home" experience.

The Dapple collection is guaranteed by the Lifetime Edge-Chip Warranty - allowing you to focus on client care, as opposed to the upkeep or condition of their dinnerware.

A beautiful mirrored hammered pattern that is whimsical and bold.

- 18/10 stainless steel
- High quality mirror polished finish

Horizontal lines on the length of the handles give the Pirouette pattern by Folio an elegantly coiled design while minimising the appearance of fingerprints.

- 18/10 stainless steel
- High quality mirror polished finish

Simple, yet timeless, the high quality mirror finish of Hartman provides a look that is ideal for any venue.

- 18/10 stainless steel
- Dishwasher safe

Kingham cutlery exhibits a clean and elegant profile and a contemporary classic aesthetic. Kingham is suited to both casual and fine dining.

woven white wonderful

Exuding style and hidden strength, the Willow collection is perfect for all fine dining and banqueting environments. Offering multi-level presentations through a series of wide rim gourmet plates and a new modern mid rim plate, Willow provides an elevated presentation that will withstand the demands of a robust commercial environment. Stylish and pure glass pieces in clear and smoked offer further dimensions and presentation opportunities for fine dining. The addition of two rich colour glazes, which create a jewel like effect add further beauty to this range. The glazes highlight and pick up the beauty of the embossed design, and elevate the Willow presentation of key signature items.

In 2017 the Willow collection was awarded the sought-after Red Dot seal of approval for outstanding design.

Patterns Available

Extra style with oval dishes and teaware shapes. The Connoisseur Teapot has been specifically designed to be utilised with the finest quality teas and avoids over brewing when combined with the Teapot Infuser. The exacting capacity means that once the first cup is poured, the remaining water level drops below the level of the tea leaves in the infuser and hence avoids over brewing.

Combining both burnished gold and gold mica, with additional white on white flatware decoration - Diamond is the perfect elegant tableware collection for numerous hospitality outlets. The geometric pattern is refined and sophisticated offering a perfect tabletop solution for elegant properties worldwide.

This collection has been created in collaboration with two-starred Michelin chef Brett Graham. The rimless design means there's no visual distraction from the finest cuisine, while the frosted edge prevents finger marking as the plate is set down on the table. Extra weight has also been added to the centre of each plate, to optimise retention of heat or cold.

Inspired by the traditional silversmith technique of planishing, the Honeybourne collection makes a tactile and light reflecting statement on the table. Featuring classic proportions of long tines and a traditional heel, the deliberately thin neck exaggerates the wide curves of the subtly textured handle. The feel in the hand is well-considered as the texture fades to smooth at the neck of each piece.

Finish: Bright Hammered
Gauge: 5mm

This heavy weighted forged pattern is perfect for banqueting, Carolyn cutlery features classic, vertical lines that add dimension to the handle and a touch of elegance to the table. The vertical ribbed lines also hide fingerprints.

Considered by some to be 'perfection in the hand'. The Radford collection has a softness and ergonomic curve which is both classic and contemporary. The Radford design is versatile enough to complement any table setting.

The Radford collection complements every dining experience. This versatility makes it a popular choice while the extensive range, which includes specialist dining pieces, offers maximum flexibility.

Finish: Bright/Satin
Gauge: 5mm

The long subtle flutes in the handles of Palm cutlery enhance the elegant profile of each piece. Spoons and forks are made using the highest quality 18/10 stainless steel. Knife blades are made from specially hardened stainless steel to provide the finest possible cutting edge.

Sandstone cutlery by Robert Welch, features a unique 'stippled effect' which adds texture and tactility to the handles. Our Designers have added a subtle feature, by incorporating a gradual fading of the texture into the neck of each piece. Sandstone is a slender pattern and has a comfortable, 'soft feel' in the hand.

The beautiful surface reflects the light with a gentle glow, creating a statement on the table alongside both formal and casual tableware.

*LIFETIME BREAKAGE GUARANTEE If any piece of Aspen Everclear Drinkware breaks, cracks or shatters under normal use, we will replace that product free of charge, upon the customer returning the product at their expense. This warranty is available only to the original party who would have purchased from an authorised Steelite dealer.

tumblers that are guaranteed for life

Optimise your serving space with Diamond, the stacking tumblers from Aspen. From Bloody Mary's and margaritas to beer and shots of tequila, these virtually unbreakable tumblers are made of polycrystal, a superior food-grade drinkware that is sure to impress. We guarantee its quality by offering a lifetime guarantee against breaks, cracks and shatters under normal use. Looking to customise your beverage experience? Diamond is also available in a handful of great colours to add that extra flair to the tabletop.

Bespoke Badges

An effective way to make a visual statement is through custom decoration using your company logo.

With an array of product and colours to choose from, put your stamp on your tableware using our simple bespoke design service #steelitebespoke.

All Steelite International tableware that is manufactured in Stoke-on-Trent comes with a lifetime edge-chip warranty, giving you assurance that your chosen tableware will perform to the highest standard.

Creating your personalised tableware is as simple as 1,2,3...

Step 1
SELECT YOUR ITEMS
Over 150 different items to choose from!

Step 2
SELECT YOUR COLOUR(S)
Choose up to 4 colours from our Standard Palette of 18 colours.

Step 3
SUBMIT YOUR ARTWORK
Files need to be in vector format (eg: PDF, EPS or AI). Files such as GIF, JPEG or PNG are not acceptable.

At that point, we can take it from there to create your personalised tableware!

Lead Times:

- **CAD VISUALS:** 3 working days.
- **FIRED SAMPLE:** (if required) 7 working days.
- **PRODUCTION:** 30 working days from receipt of order AND approval of fired sample/cad visuals (whichever occurs last).
- Orders over 452 items may require additional production time.

Minimum order requirements for this service are:

- **INITIAL ORDER:** 300 pieces (mixed).
- **RE-ORDERS:** 156 pieces (mixed).
- Items ordered must be in full case quantities.
- Due to the bespoke nature of this program, quantities subject to 10% over/under allowance. Customers will be billed for the exact quantity shipped, not to exceed 10% over or under the quantity ordered.
- **12 case pack on all items is available on these items for this service.** (On items where the case pack is greater than 6 in the standard price list).

For the full Bespoke Badge brochure visit:
www.steelite.com/literature

Care & Use Instructions

Seventy percent of product damage/loss occurs at the dishwasher table. To avoid such damage, ensure that the dishwasher table has sufficient space to store dirty items and avoid overloading trays or trolleys.

All items should be separated into type prior to washing. All washing equipment chemicals should be maintained and checked regularly. Check stock often; storage facilities should allow for stock rotation to prevent overuse.

CERAMIC

- Should be washed within 45 minutes of removal from the table and pre-rinsed
- Avoid contact between china, dinnerware and metals
- Abrasive cleaning aids should not be used, i.e. scouring pads, steel wool, etc.
- Minimise handling to reduce glaze abrasion
- Do not stack more than 15" high
- In order to reduce abrasions, do not slide items across each other
- Be sure to rotate your stock to prevent uneven wear
- Only stack products that are designated stackable

DRINKWARE

ASPEN EVERCLEAR DRINKWARE

- Freezer safe
- Safe with hot and cold liquids
- Commercial dishwasher safe
- High-Temp dishwashers are recommended
- Low phosphate and low chlorine washer detergent and sanitiser (e.g., Ecolab's Apex2 system) are recommended
- When using a 3-tier washing system, avoid using scratch pads or abrasive brush scrubbers
- After washing, store glasses dry
- Towel dry with soft cotton buffers or towels and polish glasses for best results

CUTLERY

- Cutlery should be washed separately from dinnerware
- Wash as soon as possible to prevent pitting from acidic food deposits
- A pre-soak in warm water is recommended to loosen food particles
- Make sure your cleaning agent is void of any abrasive or corrosive qualities
- Use upright baskets to prevent scratching and to aid drying
- Do not overfill the upright cutlery baskets
- If using a low temperature dishwashing system, carefully follow the manufacturer's instructions to avoid staining or corrosion
- On completion of the wash, allow the cutlery to air dry, hand dry if necessary
- Be sure cutlery is completely dry before storing in a dry location away from the kitchen

STEAK KNIVES

WOOD HANDLED KNIVES

- Handwashing is recommended for the best performance and optimal product life
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly
- Water and harsh detergents will dull the finish and dry out the handles
- It is recommended that the wooden handles be oiled as needed

ABS (RESIN) HANDLED KNIVES

- Low temp dishwasher safe
- Wash knives with warm water and a mild detergent,
- Rinse well and dry thoroughly
- Not recommended for high temp dishwashers that exceed 167°F / 75°C
- Knives should not be exposed to extreme temperature changes, which will cause the abs handle material to crack over time

STAINLESS STEEL KNIVES

- Dishwasher safe
- Wash knives with warm water and a mild detergent, rinse well and dry thoroughly

BLADE SHARPENING

- Serrated blades cannot be sharpened
- Blades with no serrations can be sharpened as needed
- The frequency will depend on how often the knives are used and how well they are maintained

THINGS TO AVOID

- Avoid soaking knives; they should be cleaned immediately after use to prevent damage caused by certain foods
- Avoid using abrasive cleaners, scouring pads, oven cleaners or cleaners containing chlorine bleach or citric extracts
- Avoid cutting on hard surfaces such as stone, metal or glass
